

Universal Health Care IS Possible ----- NOW

Michael Moore supports Conyers/Kucinich health care plan HR 676

"Thank you Dennis Kucinich for running for President," says award-winning filmmaker **Michael Moore** as he endorsed the

[Conyers/Kucinich universal health insurance bill \(HR 676\)](#) currently being considered by the U.S. House of Representatives. And, "thank you," Moore continued, for "at each of the debates, bringing up this very important issue and requesting that our fellow Democrats state their specific positions of how we're going to bring health care to all Americans and remove the profit incentive from health care. It has to be removed, and thank you for saying that over and over again."

"Insurance companies are holding our health care system hostage and forcing millions of Americans into poverty with unconscionable premiums, co-pays, deductibles. We've got to have not-for-profit health care, **get the insurance companies out of the picture.** Health care is not a privilege, it is a right, and it is a human right."

- Dennis Kucinich at the SEIU Conference of Health Care – Las Vegas, NV – March 2007
